AIDS, MEETING THE CHALLENGE: DATA, FACTS, BACKGROUND

World Council of Churches (WCC Publications). Paperback. Book Condition: new. BRAND NEW, AIDS, Meeting the Challenge: Data, Facts, Background, Sonja Weinreich, Christoph Benn, Each year HIV/AIDS claims the lives of millions and profoundly affects the economic, political and social stability of lands and regions. If humanity is not to be overwhelmed by this disease, global solidarity and concerted action are required. This book provides essential information for coalitions working locally, regionally and globally to prevent the spread of infection and to offer humane treatment and community resources to people living with HIV/AIDS. It is based in the authors' personal experiences and research as they have engaged in the campaign to eradicate AIDS. They address matters of medical fact, and also take into consideration sociological, psychological and theological questions that inevitably arise. 'AIDS: Meeting the Challenge' is a compendium of current information on the crisis of HIV/AIDS, with indications of how readers may continue to update their knowledge amid the constant changes in basic data, scientific developments and a flood of specialised literature. Among the many topics covered, readers will find sections of the book on HIV transmission, vulnerability to infection, socio-economic contexts, stigma and discrimination, prevention, care, antiretroviral therapy, advocacy and lobbying, as well as reflections on the churches, theology and HIV/AIDS.
