Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Tenotypy: The Machine Way in Shorthand The Stenotype s success during the three years it has been taught in public, private and parochial schools is sufficient evidence that Stenotypy has improved the recording of speech in the four most important essentials - ease, speed, accuracy and legibility. By conserving energy it has become an expression of this age of progress when better and faster methods, applied to a machine, are constantly supplementing and supplanting the cruder hand methods in every line of endeavor. This manual, the outgrowth of valuable experience, presents a simpler Stenotypy, more easily learned, written, read and taught. In this edition everything unnecessary has been eliminated, but nothing has been omitted that would help the beginning student or the most expert operator. The system is complete and comprehensive, adequate to meet the severest test to which it may be put. In presenting this edition to the public grateful acknowledgment is made of the suggestions of teachers, students and writers, and especially of the service rendered by Misses Mary McEvoy and Laura H. Smock in compiling it. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
